**MAY MCCARTHY, CEO, AUTHOR, SPEAKER,  
ENTREPRENEUR, INVESTOR**

*"The Path to Wealth: How to Turn Intuition into Profits!  
Seven Spiritual Steps to Financial Abundance"*

**Location: Sullivan Ct C5 Time: 2:30pm-3:30pm**

Description of Presentation: In *The Path to Wealth*, serial entrepreneur, investor, and author, May McCarthy, will teach you how to partner with an all-knowing, universal power that can help you to achieve greater financial abundance and freedom. May has used the seven spiritual steps she describes in her book to grow six successful companies and make millions of dollars. You will learn how to use spiritual principles and achieve more of your goals, while your new partner does its job in the partnership.

Biography: Since 1982, May McCarthy has co-founded and grown six profitable companies with four of them being multimillion dollar technology companies as large as \$100 million in annual revenues. She also worked for Fortune 500 companies like Johnson & Johnson and Boeing. May is an angel investor, advisor to dozens of small and medium sized companies, and is on the boards of business, philanthropic, arts, and educational organizations including the Innovation & Entrepreneurship Center at Seattle University. She is a guest university lecturer and speaker sharing successful business strategies that make work more profitable and fun!

May has become an expert on how to recognize and follow the advice provided by the All-Knowing Power of the Universe, whom she calls her Chief Spiritual Officer, to make millions of dollars and have fun along the way. Through workshops and her book, *The Path of Wealth: Seven Spiritual Steps for Financial Abundance*, she teaches others how to partner with their all-knowing power of the universe and rely on the intuitive messages they receive to achieve more of their goals, dreams, and desires. After sharing her simple seven step system with hundreds of people in workshops across the country, all have reported achieving more of their goals while having more fun in the process.
